In-System Damage Protection

Protect Surfaces to Increase Efficiency

Vehicle Protection
Molded vehicle protection that protects class A painted surfaces from impact, scratches, dents and damage.

Front Fenders, Rear Quarter Panels, Front & Rear Sill, Bumper, Center Console, Hood, Front & Rear Door.

Tool Covers
Exotic’s pneumatic and electric tool covers will help eliminate chips, scratches and damage by protecting your class A surface. This materials absorbs the impact.

Installation Tooling Protection
Installation tools can be a source of damage to class A painted surfaces. Exotic’s ProtexUs materials are available where skilled trades can easily apply them to exposed surfaces and eliminate causes of damage.

Facility Protection
Exotic can provide pillar post covers and guard rail protection that will eliminate any scratch points in your final assembly process.
